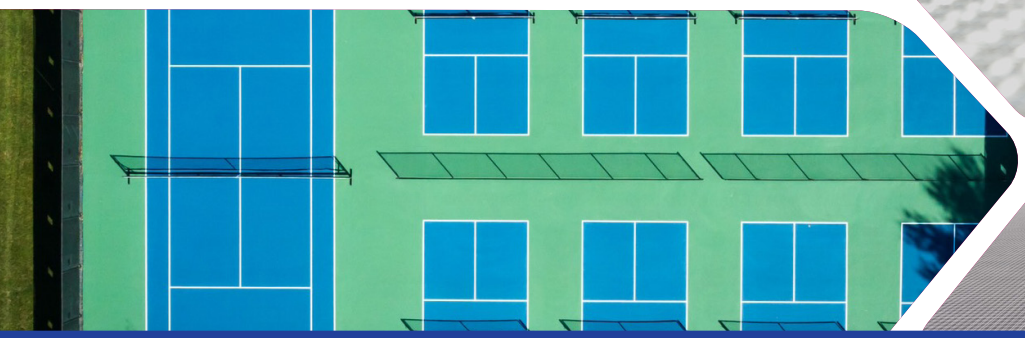
Dynaflex Sports Surfacing



GRIZZLY COURT

THE ULTIMATE FLOATING MAT SOLUTION FOR CRACKS

Dynaflex Sports Surfacing is excited to introduce its new Grizzly Court, a revolutionary free-floating mat system designed to restore and enhance tennis, pickleball, basketball, and multi-sport courts. Engineered with patented technology, Grizzly Court provides unmatched durability and resilience while preserving optimal ball bounce and playability.

Transform your sport surfaces with the newest innovative, high-performance solution for cracked surfaces that delivers superior resilience without compromising playability.

Grizzly Court – Stronger. Smoother. Smarter.

Cracked Court Solution & Performance Boost

- Effective solution for covering cracked court surfaces creating a consistent and durable playing experience.

All-Weather & Thermally Stable Installation

- Unlike competitors, Grizzly Court can be installed at any temperature suitable for coatings, eliminating delays due to weather constraints.

No Dead Spots

- Conforms seamlessly to existing surfaces, ensuring uniform play without unpredictable ball behavior.

No Special Equipment Needed

- With no special equipment required, Grizzly Court is a cost-effective and efficient solution for both asphalt and concrete courts.

Vapor-Resistant & Long-Lasting

- Not susceptible to vapor transmission, ensuring a durable, low-maintenance, and long-lasting playing surface.

Contact us TODAY to learn more about the revolutionary Grizzly Court system and why it is the best choice for your next project!
